Mission / Philosophy

The Andy Warhol Foundation for the Visual Arts was established in 1987. In accordance with Andy Warhol's will, its mission is the advancement of the visual arts.

Grants are made on a project basis to curatorial programs at museums, artists' organizations, and other cultural institutions to originate innovative and scholarly presentations of contemporary visual arts. Projects may include exhibitions, catalogues, and other organizational activities directly related to these areas. The program also supports the creation of new work through regranting initiatives and artist-in-residence programs. The foundation values the contributions of all artists, reflecting the true diversity of the contemporary art field, and encourages proposals that highlight women, artists of color, and under-represented practitioners.
